Director-General

Dear Sir/Madam

Ref: Project Application Number MP 09_0175

Location: Karuah East Quarry Pty Ltd, Lots 12 and 13 DP1024564 and access road within the Pacific Highway easement.

We have previously sent a letter of support in February 2012 regarding the above project application and have noted that this development application seems to be taking a considerable time.

The Karuah Motor Yacht Club Incorporated fully supports this project because we are confident that Hunter Quarries will continue to support the community of Karuah through employment of staff and also assistance with a numerous number of sporting clubs and charitable committees, community groups and businesses within the Karuah and surrounding district.

Our Club has received assistance from Karuah East Quarry Pty Ltd (Hunter Quarries) during the past 9 years since we incorporated and it is from this that we have grown to now have well in excess of 300 financial members. Hunter Quarries has assisted us with generous donations of gravel to repair our entry road and carpark areas and also 5 years ago with a donation of gravel for fill when we built our awning extension to meet our growing membership needs.

The Karuah Motor Yacht Club also has many members who are on many environmental and fishing and sporting Committees throughout Port Stephens & Great Lakes areas and we are fully supportive of Karuah East (Hunter Quarries) continuing to develop into the future.

We now ask that this Development Application be given priority and approval be granted to enable continuation of works by Karuah East Quarry Pty Ltd.

Yours truly

Ken Baker 
Commodore, KMYC Inc.
