7 BORTON ST.
BALLINAT

2478

My wife + I are 88 + 86.

As you can see by our address we live in a duplex unit opposite the Ballina High school.

Our street was once a back lane servicing the rear of houses in Swift + Burnett streets. It is only single lane each way with an emergency pull over area onto front lawns.

We have to be very careful backing out especially at starting or finishing times of the schools.

We have been told that the proposed "Super School" will have no on site parking for teachers, students or ancil. staff; with up to 1000 students expected it will mean chaotic parking in the surrounding streets.

I was born in Ballina and attended the nearby St Francis Xavier's school until I went to Tasmare to complete my primary + secondary classes. I remember the Ballina High school being a brick building in the middle of a paddock bounded by Swift Martin, Bantnick + Cherry streets. In this square block was also Clement Park rugby league oval and a hockey field with large areas all around them for spectators. A cycle racing oval was also in the park; all this area is now fenced and is B.H.S. which is "All" to be used without on-site parking. This is very hard for us to understand.

Keith + Deryl Fletcher.
