As the owner of Unit 109 in the "Princeton Apartments,"
304-308 Pitt Street Sydney NSW 2000, I strongly
object to the construction of such a large development
on top of the new Sydney Metro Station (Pitt St South)

One of my prime concerns is the overshadowing of
Hyde Park & loss of sunlight on the area - so
important for the people of Sydney

In addition the insufficient separation between
the buildings will lead to loss of views, privacy
and sunlight for a large number of owners.

I urge you to take into account the many negative
effects this new building will have on all the
residents of the "Princeton" & change your plans
accordingly.

Yours sincerely,

D W Gale. (DONALD WILLIAM GALE - BDS. OAM.
