Mangoola Coal Continued Operations Project SSD-8642

I object to this proposal for Mangoola Coal to come across Wybong Rd. It will be if approved only approximately 2 kms from our property.

I already suffer greatly from the existing operation due to the dust and noise they create. I fear that these negative impacts on our life and home will be increased if this project is allowed to go ahead.

We have had a wall in our bathroom cracked from mine blasting and worry that if the mine comes closer damage from blasting will be increased.

The community of Wybong has already been very negatively impacted and I do not want to see it destroyed further.

I worry that the value of our property has been decreased already and will be further eroded if this project is approved. We have lost the ability to sell our property at a fair, unimpacted market price, when and if we want to sell.

I am unwell and do not need the increased worry this project presents to us and our property value. We feel trapped in our own home.

I have not made a political donation in the last two years.
