Wybong, NSW 2333

Mangoola Continued Coal Operations Project SSD-8642

I object to this proposal on the following grounds:

The mine “extension” makes my property unsaleable.

The increased noise will be a big problem.

The increased dust will make my location a health concern.

The increased dust contaminates the water in the area.

The continued buyouts are destroying the sense of community for Wybong.

I have not made any reportable political donations in the last two years.

A handwritten signature in blue ink that reads 'Kathy S. Johnstone'.
