RE: Rixs Creek Modification 10 Application

I am writing in Support of the Rix's Creek Modification 10 application.

The Bloomfield Group has been the life support for many people and businesses throughout the Hunter Valley for over 80 years, always striving to do things right and helping the community along the way.

My business has been supplying maintenance services to Bloomfield Colliery and now Rix's Creek South for over 35 Years, with my children now helping manage my business and association with Rix's Creek.

We currently employ 14 people and if Rix's Creek was to stop operation my business, the people working for me and my children would be without income and it would mean the closure of my business.

I ask that the Modification be approved.

Thank you

Regards

Patrick Geary

Director Tygear Operations Pty Ltd
