Dear Ms Scott

**Re: Exhibition of Environmental Assessment for Newcastle Gas Storage Facility
(10_0133)**

Further to my letter of 8 July 2011, we have completed our assessment of the proposed Newcastle gas storage facility (Application Number 10-0133) and can advise that neither the structure nor the gas plume will have any affect on the instrument flight procedures associated with Williamtown Airport.

Thank you for the opportunity to comment on this proposal.

Yours sincerely

Malcolm McGregor
