**WOLLONDILLY SHIRE COUNCIL – PICTON REGIONAL SEWERAGE SCHEME -
MODIFICATION**

Dear Sir/Madam

Reference is made to your email of 14 December 2011 forwarded to Roads and Maritime Services (RMS) regarding the subject modification request.

RMS have reviewed the submitted information and notes that the traffic generation of the proposal is expected to have a negligible impact on the road network. In this regard, RMS do not object to the development application in principle. RMS offers the following comments for your consideration:

- Should the TMP require a reduction of the speed limit on the regional classified road network, a Speed Zone Authorisation shall be obtained from RMS Traffic Operations Unit (TOU) prior to commencing work within the classified road reserve. The requests shall be submitted to the RMS 10 business days prior to commencing work. It should be noted that receiving an authorisation within this 10 business day period is dependant upon the RMS receiving an accurate and compliant TMP. It should be noted that a Road Occupancy Licence from the RMS is not required for works on regional classified roads.
- It does not appear that the proposal will affect MR612. If future proposals are likely to impact this road, full details of the proposed works should be submitted to RMS for approval. RMS notes that in accordance with section 138 of the Roads Act, 1993 RMS concurrence is required for any proposed works or structures within the road reserve of a classified road.

If you have any questions please contact Andrea Boes on 4221 2771.

Yours faithfully

Brian Lefoe
