Hi Andrew, thank you for the emailed letter to John Fullerton CEO & MD at ARTC dated 29 July 2019 and the opportunity to respond. ARTC is working with the applicant on the rail side of this project on an ongoing basis and is aware of and supports the proposed changes to the siding, rail volumes and train pathing as detailed in the Project Modification.

The rail works at Ivanhoe will be carried out under a negotiated Works Deed when the construction begins.

With Regards,

Colin Ahrens
