Haakon Nielssen
Manager Environment
AUS-Murray Basin
Tronox LTD

Dear Haakon

**Re: The Tronox Proposal to seek modification to the Development Consent of the
Atlas-Campaspe Mineral Sands Project.**

Council acknowledges your meeting with staff and thanks you for your detailed explanation of the proposed modifications and consent being sought.

Council understands that the modifications include increased road transport of product from the mine to the Ivanhoe Rail facility (450 ktpa to 665 ktpa). Council is satisfied that the existing road maintenance contributions in Appendix 8 of the Atlas-Campaspe Mineral Sands Project Development Consent will address the road maintenance associated with the increased road transport of product, from the mine to Ivanhoe.

In addition, it is understood that the modification includes the realignment and alteration of the Ivanhoe Rail Facility access road intersection, this will be designed and constructed in accordance with Austroads requirements in consultation with the RMS and Council. Council will rely on comments from the RMS on the minimum acceptable standard for this intersection, once the proposed modification is lodged with the Department of Planning and Environment and referred to the Roads and Maritime Services for appraisal.

Thanking You
Reece Wilson
