Subject: Chain Valley Modification 3 and Mannering Modification 5
Date: Tuesday, 2 July 2019 12:07:51 PM
Importance: High

Hi Melissa,

Unfortunatley I couldn't set up a user name and password on your website.

I would like to submit an objection to the Chain Valley Modification 3 and the Mannering Modification 5 on the following points.

- Excess and increased noise pollution
- Excess and increased air pollution
- Excess and increased truck and traffic movements in this area
- Excess and increased material being stock piled in the ash dam
- Greater risk of martial in ash dam contaminating Lake Macquarie and ground water

I believe all of these areas need to be addressed before any final approvals.

If you need to contact me, my details are below.

Regards,

Jeff Scott
