For the attention of Dept Planning-Mining and Major Projects

I understand that the Moolarben Coal Mine has just revised Stage 2 plans for open cut and underground min expansion which does not include The Drip and Corner Gorges being transferred into the adjoining Goulburn River National Park. As a frequent visitor from the mid North Coast (Coffs Harbour) who enjoys the splendour of the area, this must be protected from the clearing of native forest and the obvious permanent damage to the Goulburn River by MINING. It is a beautiful heritage area which should be accessible for everyone to enjoy. A short-term mining gain will be a permanent loss to us all and future generations. Please take the time to explore the area for yourselves - it needs serious consideration.

Regards
Audrey Broaden
