Content:

I am totally against any mining activities to be held in the area of The Drip. This area had such environmental biodiversity and brings alot of tourists to the Mudgee Region. Alot of the district has been destroyed by mining, enough is enough. Leave fragile environments alone, money isn't the answer to everything. These environments have taken thousands of years to evolve and mining detroys them in a matter of years, we cant get these complex ecosystems back. Replanting after the mining industry has raped the land just doesnt cut it, it leads to a monoculture type environment.
