I ask you to consider the preservation of THE DRIP & CORNER GEORGES off the Goulburn River. Failure of the company to include this area in the offset package is of concern.

My connection with the Goulburn River extends to the late 1940s. Over this time I have seen many changes. One cannot drink the water without risk.

Doubtless this area should be part of the Goulburn River National Park as it has now become private property (being converted to freehold over recent times) to enable public access & enjoyment.
