Dear Sir Madam

The destruction of the Drip and Corner Gorges would be a tragedy and a crime. It is well known as a sacred Aboriginal women's birthing space - Fleur Magick has rekindled her Wiradjuri cultural women's practices, with the guidance of her tribal elders, of using the Drip and Corner Gorges as their women's healing and birthing site. The cultural heritage value of such a site is of enormous value to Aboriginal people and in turn to all Australians.

This significant and unique Aboriginal cultural site is of huge benefit for the local Aboriginal community and I wholeheartedly support the protection of Aboriginal sacred land. The area is also of immense ecological importance and needs to be preserved for future generations.

Sincerely,

Kate Delaney,
25 Alexandra Ave
Wentworth Falls NSW
