To whom ever it may concern

from climate :change "escalating" to ..... chaos.

not a job involved "ROBOTS".

CORE RECT ACTION

I  
INFINITELY suggested that we as a living species ...human,

including you self,whomever you may be?

.....who,at this present time are  
" all living "  
on this 1 and only known planet "EARTH  
which is capable of supporting life

BRING A HALT to this GREEDILY PURSUED INSANITY,

THIS INSANITY of the destruction of this "our" planet,

While there is still opportunity to do so.

COAL is one of the major cause of such...I SAY NO MORE ....ENOUGH IS ENOUGH!

YOU MAY FIND IT A BETTER CHOICE  
TO RELEASE SUPPRESSED FREE ENERGY TECHNO/"KNOW" LOGY.

we are out of time.

This is not a game...."DEMOCRACY ...political and social equality is spirit and practice".

for the "good" of the people.

" try respect "

Thank you for your attention.  
may we have a future.

in truth  
Linda Adams.
