The Planning Minister  
Hon Brad Hazzard

Please give consideration must be given to saving some of our Parks  
It is understandable that the Moorlaben CoalMine do not care what they  
do to our beautiful land as their focus is on the getting of money

Surely you have the right and powerand the intestinal fortitude to  
protect it for us and our future generations

We hope we can rely on your sense of of what is real and important to all
