---

I am deeply disturbed by the news about proposed mining of the area adjacent the Drip near Mudgee. The Drip and Corner Gorges should be transferred into the Goulburn River National Park to ensure the long term protection and appropriate management and legal public access to this regionally significant recreational, educational and cultural river corridor. I grew up in Mudgee many years ago and The Drip and the Munghorn were great places for us to visit. It grieves me greatly that this Government is selling our heritage and that future generations will miss out.
