Subject: a plea for the DRIP AND CORNER GORGES ON THE GOULBURN RIVER AT ULAN , NSW

dear sir/madame

i want to see the Drip and corner gorges incorporated into the adjoining Goulburn River National Park and protected from certain damage from the encroaching coal mine

I've had a long association with the Drip

could there be many such special places worthy of saving

i think not

a mystical precious place

please see that all can be done to save it

sincerely
