Refer to: Moolarben Coal Complex Stage 2 _ Preferred Project Report: Project No: 08_0135

We are appalled to learn that Moolarben Coal has not included in their offset package for the approval of Stage 2 of the Moolarben Coal Complex, the transfer of the The Drip and the Corner Gorges to the Goulburn River National Park. This has been requested by the community, the council and government and is being blatantly ignored. This area needs protection and we, as residents in the area feel that this shows a shocking disregard for the community and the authorities.

Please ensure that these areas are protected for us and future generations. We demand that you do so.

Yours sincerely
Virginia King and Ken Watson
