Director of Mining & Industry Projects.

Ardmore Park Quarry.

Application No MP 07_0155 Mod2

I am very concerned about Mulitquip Ardmore Park Quarry moving large trucks through Oallen Ford Rd / Windellama Rd.

- 1: These roads are narrow mainly with no centre lines, blind bends, broken edges and not designed for heavy trucks.
- 2: More traffic uses these roads now as a result of upgrading of MR92 to the coast, therefore extra danger.
- 3: As a member of Windellama Rural Fire Service and fire truck driver I am worried by extra large trucks on these roads when attending fires and motor accidents etc.
- 4: The extra noise for residents along these roads is unacceptable.
- 5: Windellama Public School is located along this route and should not have to bear the extra danger to children .

I therefore am strongly opposed to the extra truck traffic on o safety and noise reason.

Regards

D Gurney
