RE: Ardmore Park Quarry Proposal

To whom it may concern,

The people of Bungonia do not want to allow the Multiquip trucks' access on to our roads especially Terrara Road. Unless, the requirements set out by the authorities are strictly abided by, and the roads reconstructed to safety standards.

There have been many accidents on our roads, the use of the trucks, on our roads will only increase accidents. For the following reasons :-

- unsafe for the children using the buses for school.
- poor visibility around corners, especially with fog.
- winding roads, difficulty slowing down for safety.
- sudden entrances, from wildlife, and oncoming vehicles making manoeuvring difficult.
- vegetation growing up to the roads, inviting wildlife.
- fallen trees and branches, causing obstructions on narrowing corners.
- narrowing roads, making it competitive for smaller vehicles over heavier vehicles.
- narrow roads, risks involved sharing with long and heavy vehicles.
- traffic will increase surely.
- pollution inevitable to increase.

- increase road damages eg pot holes, from heavy vehicle usage, increasing risks for smaller vehicles especially motorbikes.
- increase in noise from exhaust breaking, increasing stress to the people of Bungonia, disturbing to other drivers using the same roads.

Lives have been lost as a consequence to the accidents. It is not fair to ignore the safety of the people, for the sake of gain. The Multiquip trucks will only increase these risks.

Yours sincerely,

~~Nick~~ Kazafamitis.
