RE: Modification 5 to MP06_0037 - Marine Refuelling & Supply Facility, at White Bay 6 Marine Park.

I am a Balmain East resident residing at 21 Hoskins Street and am writing in support of the lodgement of Modification 5 to MP06_0037 - Marine Refuelling & Supply Facility, at White Bay 6 Marine Park.

I feel that the modification of the facility, as outlined in the environmental assessment, is in keeping with the future development of the precinct identifying as "working harbour".

I believe that this will allow local job growth, reduce aesthetical nuances, and provide a facility that is fit for purpose to support the original site usage approval.

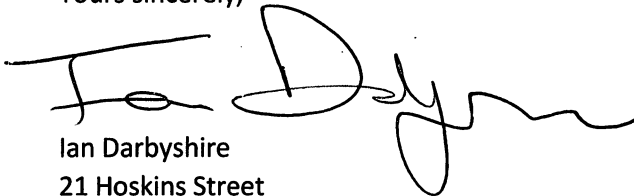

I believe that proposed improvements will also assist the following:

- New purpose-built workshops will allow for a cleaner aesthetic view, significantly reducing noise;
- New floating wharf will provide berthing for vessel to safe access the location; and
- Increased operational hours will allow the business to remove marine clutter from waterways during summer when usage is generally higher.

To date the existing approvals have not caused offence nor impacted negatively on us as local residents and is a preferred use of the site when compared with alternate uses of the Bays Precinct.

I believe that an outcome in favour of the facility will not assist in regulating and tidying up the area but will retain the location as an integral part of Sydney's working harbour history.

Yours sincerely,

Ian Darbyshire
