RE: Mosman High School – Response to Council – D/2018/313

In response to EIS comments below (in Blue) received for Mosman High School - Black Beetle note the following:

The Crime Prevention Through Environmental Design (CPTED) analysis is unclear how external spaces designated as 'out of bounds' will restrict access to students

Areas of the school designated as out of bounds in the new design scheme are generally maintained in line with current 'out of bounds' areas. As such, these areas (including additional areas along the northern boundary) will be managed operationally by the school in line with their current management practices for these areas.

Kind Regards,

Giselle Barron
