Mr. Edward Wallace BROWN

22 Bilberry Avenue, Bilgola Plateau 2107.

Application: Northern Beaches Hospital - Frenchs Forest No. 551598

I do not support the above application for the following reasons. Traffic problems in the area are already a big problem and during heavy rain in the area, Wakehurst Parkway is closed off owing to flooding, necessitating all of the traffic using Warringah Road.

Ever since Mr. Iema let the local people know that this was the final situation on the hospital it has been criticised with the locals pushing for the present local Hospital Mona Vale to be the most logical choice. The land in that area is available and any traffic problems would be minible compared to Frenchs Forest. This logical situation has been ignored by our politisions in spite of partisions and meetings favouring the Mona Vale site.

The site itself with the excelent views out to sea etc. I recon would be beneficial to patents recovering from illness and operations.

Yours Truly

*E. Brown*
