Address: 6/7 Leichhardt Street, Waverley, NSW, 2024

The name of application: St Catherine's School Master Plan

Application number: SSD 6339

Attention:

Director, Industry, Key Sites and Social Projects

Re: Application No SSD 6339

Dear Sir/Madam:

I am writing to register my objection to the planning application as above.

The reasons why I object the application are as following:

1. The traffic impact. More drops-offs and traffic chaos will affect life quality and personal health.
2. Parking issues especially for day and night parking as well as weekend. I can't live with so many noises. The traffic also dangerous for pedestrians as well as elder people. Majority of the people who live in this areas is elder people, they can't move fast and potential accident could happen.
3. Other pollutions caused by the development would significantly affect the character of the area. Especially the construction dusts will affect people's health. Majority of residency are elder people, they deserve the best quality of the life including the fresh and clean air not with the dusts all around their living places.
4. Overshadowing will also affect all the people who live around this specific area. They could suffer from less sunshine and all the living condition will getting worse.
5. Fewer trees and less sky which are not acceptable for such friendly living environment. Less trees means less fresh air and birds could be vanish because of less trees and construction pollutions.
6. This building construction would significantly affect my quality of life includes loss of personal view and loss of property value.

Please take this into account when consideration of the construction application. I urge object this application.

Your faithfully

Marija Curdija
