Significant Development Modification: Fort Street Public School
Application No. SSD-10340-Mod-1

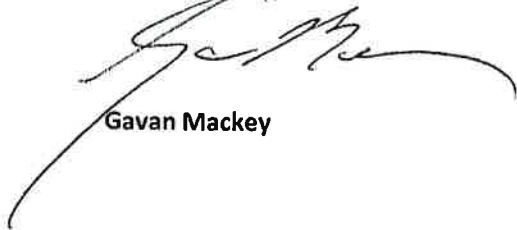

To whom it may concern,

I would like to express my concerns in regard to future development on the site of Fort Street Public School. The site is obviously unique for a school, being in a heritage listed area and situated on Observatory Hill, an iconic landmark in the Sydney landscape.

I recognize that the school being one of the oldest schools in Australia needs upgrading and some expansion for the growing surrounding population of primary age school children.

However, if there was to be even further construction in the future it would have, I believe, a detrimental effect of the surrounding historical heritage landscape, which is unique and would be lost for future generations to come.

Yours sincerely,

Gavan Mackey
