Attention: Mr Paul Freeman & Ms Sophie Butcher

13 December 2012

Dear Mr Kitto

**HANSON CONSTRUCTION MATERIALS PTY LTD – EAST GUYONG QUARRY  
REVIEW OF PROJECT APPROVAL MODIFICATION APPLICATION (06\_0193 MOD 1)**

I refer to an email from Ms Sophie Butcher of the Department of Planning & Infrastructure (DoP&I) dated 27 November 2012 requesting the Environment Protection Authority (EPA) to make a written submission to DoP&I regarding the Project Approval Modification Application provided for the abovementioned project by the proponent, Hanson Construction Materials Pty Ltd (Hanson).

The EPA has undertaken a review of the Project Approval Modification Application and has no objection to the proposed realignment of the internal access road.

For your information and as you may be aware, the EPA has issued environment protection licence 20190 (the licence) for the abovementioned project in line with the in-force Project Approval. The EPA has identified that no changes to the licence will be required if the Project Approval Modification Application is approved.

Should you have any further enquiries in relation to this matter please contact Mr Matthew Corradin at the Bathurst office of the EPA by telephoning (02) 6332 7603.

Yours sincerely

  
**RICHARD WHYTE**  
**Manager Central West**  
**Environment Protection Authority**
