

Department of Planning and Infrastructure,

To Whom it may concern.

My name is Michael Cleary. I live in the
Mudgee region 82 Beragoo Rd Grattai
2850.

I do strongly object to the development
of the Cobra mine proposal.

The project will generate approx 615 million
tonnes of greenhouse gas. It is in direct
conflict ~~at~~ State and Federal Government
policy to reduce greenhouse gas emissions.

The project will use important high conservation
and agricultural land. The project will compete
with Mudgee Wine and Tourism Industry
and ~~use~~ use much of our Water (I should
I say waste our water clearing low grade
coal. They propose to mine 20 mtpa
to produce only 12 mtpa of coal of extremely
poor quality.

I hope this project does not get
off the ground and the Government
thinks more about Renewables and
the future. Cobra Coal mine is a
Bad proposal and should not go ahead.

Yours sincerely
M. Cleary
