Dear Sir/Madam,

I am a member of the Lane Cove Bushland and Conservation Society, and the Lane Cove Sustainability Action Group, and I welcome the opportunity to comment on the proposed COBBORI coal mine. I am strongly opposed to this appalling proposal.

\$3.4 billion of taxpayers' money would be an inappropriate investment. Moreover the plan is based on outdated electricity demand & coal price projections. We need to reduce climate change impacts. Only today, BAN KI-MOON of the U.N. deplored climate change, the new New York Storm was a factor in his decision to publicize the dangers of climate change.

Wesleyan Adviser for employees
Areas more to attend, as
Areas Aborigine workers at
more to, too.

The project would
compete with the major work
as tourism industry for better
supply during dry season
The project has a very
large carbon footprint. Since
disruption has not been taken
into account. The need for
major infrastructure upgrades,
particularly rail lines, to overcome
additional cost transport, has not
been taken into consideration.

There are doubt in
town are property along the coast
that will be up and down
I STRONGLY OBJECT
TO THIS PROPOSAL.

Sincerely
Email: robert65@tpg.com.au Alice Jones
