Postal Address: P.O. Box 356

19th May 2014

To Whom It May Concern,

Henry Plant & Equipment Hire has approximately 70 employees, and our company has been involved in some form with the coal mining industry for the past 50 years.

We rely on the coal mining industry to continue operations, to support our staff employment, income and prosperity.

We employ local people in our business to achieve quality results for our company, and have the satisfaction of performing for our clients to the best of our ability.

The workforce we employ rely on us for continual work to maintain their employment and income. We in turn rely upon Springvale Coal Services to continue to mine coal to sustain our business and achieve positive outcomes.

Springvale Coal has approximately 380 employees. Their income is spent on local businesses and services. They also have great involvement in local sporting and community groups. They have a good track record in our local area with minimal impact to the people that live here and the local environment.

Henry Plant & Equipment Hire understands that Springvale Coal Services have a proposed mine extension that will extend the life of the mine into the future. We believe that approval of the extension would be of great benefit to the entire community at large, as well as to our own company.

Yours Faithfully,

Peter Henry
Director
