Attention:

Peter McManus

I definitely do not support any
portion of the proposal developed by
my privacy will be invaded by
the fall shuttles as well as
light me to my house last night
will be in shadows all day
long during the depths of winter
& will be very depressing for me.
There will be an incident
near factor from the driveway.
This noise will be caused by
vehicles such as school buses
& also the garbage trucks.
I hope all these issues will be
seriously taken into account
as part of your decision making
process.

Sincerely

June Sparks
