ATTENTION: Mr Toby Philp

Dear Mr Philp

Agency Comment – Modification of Development Consent: Glen Innes Wind Farm MP07_0036 MOD 2

I refer to your letter dated 17 March 2014 seeking comments from the NSW Rural Fire Service regarding the above mentioned development.

The NSW Rural Fire Service (RFS) understands the modification proposal consists of the following two elements:

- *Providing for the installation of more efficient turbines which have a different rotor sizing to that which was approved on the 2nd of September 2010; and*
- *Micro-siting within the approved layout to accommodate the larger dimensioned turbines.*

The RFS notes that no documentation was referred that indicated which conditions of the development consent issued 2 September 2010 have been applied to be modified.

However, the RFS has no objection to the modification proposal proceeding, providing the bush fire conditions, numbered 2.36, 2.37 and 2.38, contained in the Notice of Development Consent dated 2 September 2010, remaining unchanged.
