**COMMENTS:**

We oppose strongly yet more plans by Shore school to the Graythwaite site. More buildings means more cars in an area already stretched in terms of parking/ more traffic (we already have enough with Shore boys driving too fast down our streets/using our streets to park in during term time... parents picking up their children and sitting in their cars in No Stopping zones so they can get their kids at 3pm.....the site should be free to be used by all as was intended, and given this isn't going to happen, no more submissions should be contemplated.
