Major Projects Assessment
Dept of Planning and Infrastructure

Re: MP 10_0150 - Graythwaite Concept Plan
MP 10_0149

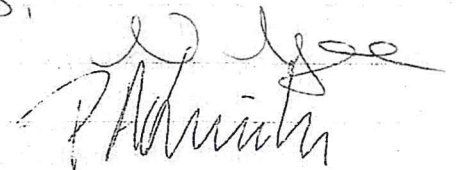

The traffic impacts, associated with Shore school's operations currently and with the larger school population contemplated by this application, are significant.

It should be managed on site.

These environmental costs need not and should not be imposed on the local community.

We object strongly to this application.

Yours sincerely,

Vera Yee and Peter Krinks
