Director-General

Dear Sir,  
Re: Shore Development  
Gaythwaite Site

I am pleased to see your department has realised William Street is one way in the wrong direction for an exit from the above site. This solution made 'locals' laugh when expounded at the meeting held at shore.

Sadly though, you have now realised Union Street is the only entrance/exit from the site. This is also impossible. It will not only affect users of Union Chatter, Thomas D... T.

William, Edmund and Mount Streets. It will, of course, affect all the surrounding area including Blues Point Road, Lavender Street, Blue Street etc, etc. as parents come and go.

During peak hours all streets carrying heavy traffic leading to the Harbour Bridge will be affected.

This site was always wrong as such a huge extension of the school (whose pupils already take up 2hr. parking all day in surrounding areas.) It was a big mistake not to honour the wishes expressed in a will, thus leaving it as a park (which does not exist) for this area of North Sydney.

I do hope you will find time to reply to this letter with explanations of your solutions

Yours sincerely  
(MRS G-A STANFORD) C.F. 11.11
