Re: MP10_0150 & MP10_0149 - Graythwaite Concept Plan.

The traffic associated with this application and an extra 450 students and 45 teachers would create huge issues for the local community.

These issues have not been adequately assessed in this proposal. The traffic options are unworkable.

Union St is already near to capacity and could not seriously be considered as an entry or exit for a pickup/drop off facility for the school. Union St has only one safe pedestrian crossing - the Blues Pt Rd lights.

William St is the route for the "walking bus" - a "green" initiative implemented by the local public primary school which has been in place for many years.

The Shore School must be able to deal with its impacts on its own site and not export them to the local community. This application does not achieve that.

I OBJECT TO THIS APPLICATION.

Name

Address

I DO NOT give permission for my name or address to be made available to the proponent, other interested public authorities, nor for it to appear on the Department's website.

I have made NO political donations in the last 2 years.
