13 December 2013

The SGHS P&C committee welcomes the proposed CBD and South East Light Rail (CSELR) to provide better public transport solutions for the wider community, a more efficient service for the school students to reduce the quantity of cars and buses on roads, and to provide environmental benefits to the community.

We believe that it is vital to design the service to meet the needs of the school children attending SGHS and SBHS, who will be a very large group of regular users. **The paramount issue is the safety of children accessing the service.**

The key points of this submission:

1. **Safe crossing not only of Anzac Parade, but also the bus lanes and the light rail tracks**
2. **Placement of Station**
3. **Transport Amenity**
4. **Parklands**

We thank you for giving consideration to the issues raised here and look forward to further engagement with the project as it proceeds.

Yours sincerely,

Chris Graham-White

President

Sydney Girls High School P&C Committee
