of planning

Why are trees important?

Hello, my name is [REDACTED], I am a 7
year old girl attending [REDACTED]

Today I am writing to you to ask you
to not cut the trees down on Alison
Road Randwick.

These are the reasons why?

- Because we breathe the air they make
- When I go past everyday I can always see how beautiful they are, this is very important to me and family and friends.
- In 50 years when you might decide you don't need the tracks anymore, we will never be able to get those trees back. It will be too late - how sad will this be.

Therefore these very old trees that lived 200 years ago are more important to us than a train to the city.

PLEASE LISTEN TO MY ADVICE

Thank you very much, [REDACTED]
