Dear Sir/Madam

We object to the Coalpac's modifications to the Invincible and Cullen Valley coal mines. The proposal will:-

- . destroy unique biodiversity, including a Grassy Box Woodland and nationally endangered plants such as Clandulla geebung shrubs and 2,300 threatened Capertee Stringybark trees.
- . threaten internationally recognised pagodas by ignoring the 300 metre minimum buffer recommended by the Planning Assessment Commission.
- . provide poor quality coal at a massive impact when other sources are already available.
- . increase morbidity and mortality in Cullen Bullen from respiratory and cardiovascular disease linked to dust.

My husband and I have lived in Katoomba/Lawson/Woodford since toddlerhood, and we strongly object to Coalpac proposal.

Yours sincerely
