Application No MP070127 MOD5

The Cullen Bullen Progress Association wish to support the proposal for the Invincible Coal mine - Southern Extension Modification

The reasons the Progress support the proposal are:

1. Castlereagh Coal have supported the Cullen Bullen Progress and if they get approval they will continue to do so.

2. Cullen Bullen is only a small town and the local area has had a down turn in the Mining Industry and this could give the locals some employment.
