Dear Louise

First of all, I like to wish you & your family with your Team & families a very Merry Christmas and a Happy New Year, 2012

Further to our conversation today, I would like to advise you that went to Dapto Library, with some neighbours, to view the new submissions by La Vie Developments Pty Ltd in relation to their project at Penrose, and most of us could not comprehend what was really offered. The photos did not reflect the real details of the view of the road and the height of the hills on site.

The question remains; what are they really offering?

My real concerns are remain the same about the two high hills in front of my place, and would like them to be totally removed to the original ground level.

Many thanks to you and everyone in your team.

Have a happy and safe Festive Season

Yours sincerely

John Najjar
