Griffin Horley Park Industrial Estate Project
Project Number 10-0129 and 10-0130

I am a resident on Greenway Place
Horley Park and am concerned about
the development of all the factories located
our area. The noise created by the
volume of traffic will increase immensely.
It will affect our life style and health.
The height of the buildings will hinder
our views of the mountains. The
bushes gone with trees & vegetation will
be of great importance with regards to
air & noise pollution.

There needs to be more talks & information
regarding this project with residents in
the area before final decisions are made.

Thank You
