

Deep Pond, the only freshwater refuge in the Hunter estuary, would be lost to this project.

The Environmental Assessment fails to meet the requirements set out by both the State and Federal agencies, and the proposal represents an unacceptable risk to the Australasian Bittern.

As submission makers are required to disclose political donations totalling \$1000 or more in the past 2 years, we can state that we have not made a disclosable donation.

Yours Sincerely,

Keith and Louise Craig
