(Address) 80 Aldyth st
New Lambton

This is a submission objecting to the proposed Port waratah coal services Terminal 4 development in Newcastle (10_0215). **The T4 proposal must not be approved** due to the significant and unacceptable impacts as detailed below.

\$23 a tone for S₈₀ by 2020 is not enough but that is \$65 a tone or CO₂ for abatement.

Coal makes 2.8 tones per tone that means at least \$150/tone is just the value we need to charge to make money not credible

As submission makers are required to disclose political donations totalling \$1000 or more in the past 2 years, I can state that I **have not made a disclosable donation**.

Your Sincerely,

Alex Burton
