This is a submission objecting to the proposed Port waratah coal services Terminal 4 development in Newcastle (10_0215). **The T4 proposal must not be approved** due to the significant and unacceptable impacts as detailed below.

Impacts on habitat, endangered and threatened species, and migratory birds

Impacts on air quality

Air quality in Tighes Hill is already terrible, I suffer from asthma + this condition is worse living in Tighes Hill. We must wash down our house fortnightly due to coal dust. Our herbs + vegetables are covered in black coal dust.

Water pollution and dredging impacts

Noise

- the shunting is disturbing + especially at night we are woken from our sleep.

Social and economic impacts in Newcastle and Lower Hunter

Impacts due to increased coal mining in NSW

As submission makers are required to disclose political donations totalling \$1000 or more in the past 2 years, I can state that **I have not made a disclosable donation.**

Your Sincerely,

Belinda Mitchell
