(Address)

This is a submission objecting to the proposed Port waratah coal services Terminal 4 development in Newcastle (10_0215). **The T4 proposal must not be approved** due to the significant and unacceptable impacts as detailed below.

We must cease our reliance on non-renewable forms of Energy. This has been recognised by Govts and major consensus Scientific opinion, worldwide. Yet still, proposals to further enhance ways to damage the viability of our natural systems - such as this - Continue to attract business, Government and community support! Every coal-train, ~~and~~ ^{this} coal ship that leaves this Port makes this community one of the ~~worst~~ environmental plotters.

As submission makers are required to disclose political donations totalling \$1000 or more in the past 2 years, I can state that **I have not made a disclosable donation.**

Your Sincerely,

(Signature)
