This is a submission objecting to the proposed Port waratah coal services Terminal 4 development in Newcastle (10_0215). **The T4 proposal must not be approved** due to the significant and unacceptable impacts as detailed below.

Impacts on habitat, endangered and threatened species, and migratory birds

My objection to the
Ath Coal Loader stems
from the economic
absurdity of putting
resources into a
polluting, unsustainable
energy ~~market~~ support
that makes a
small percentage of
our community wealthier
while undermining the
wealth and health
of the vast majority
of the community,
when sustainable energy
sources are feasible
and under-resourced.

Impacts on air quality

Water pollution and dredging impacts

Please start getting
sensible about this
issue.

Social and economic impacts in Newcastle and Lower Hunter

Impacts due to increased coal mining in NSW

As submission makers are required to disclose political donations totalling \$1000 or more in the past 2 years, I can state that **I have not made a disclosable donation.**

Your Sincerely,

(Signature)

(Normally submissions are made public. If this is an issue for you please indicate below)
