This is a submission objecting to the proposed Port waratah coal services Terminal 4 development in Newcastle (10\_0215). **The T4 proposal must not be approved** due to the significant and unacceptable impacts as detailed below.

Impacts on habitat, endangered and threatened species, and migratory birds

We need to protect our environment's unique species & wetland habitats. Offsets never adequately compensate for these losses.

Impacts on air quality

Dust increase will adversely affect our health and already high levels of asthma

Water pollution and dredging impacts

stop the pollution of our waterways & wetlands areas

Social and economic impacts in Newcastle and Lower Hunter

Impacts due to increased coal mining in NSW

As submission makers are required to disclose political donations totalling \$1000 or more in the past 2 years, I can state that **I have not made a disclosable donation.**

Your Sincerely,

(Signature)

(Normally submissions are made public. If this is an issue for you please indicate below)
