CAMDEN NSW 2285*

This is a submission objecting to the proposed Port Waratah coal services Terminal 4 development in Newcastle (10\_0215). **The T4 proposal must not be approved** due to the significant and unacceptable impacts as detailed below.

Impacts on habitat, endangered and threatened species, and migratory birds

*We have the technology to use renewable energy  
Instead of going down the same old track of  
Coal Newcastle could be the "Renewable Energy" Capital  
of Australia, who knows the world!*

*When we politicians go to have some balls and  
be a Trail Blazer in the Renewable Energy industry.*

Impacts on air quality

*"Poison" -  
We have to look after the generations ahead,  
they are watching us!*

Water pollution and dredging impacts

*Proven food - "Fish" our source of essential elements*

Social and economic impacts in Newcastle and Lower Hunter

Impacts due to increased coal mining in NSW

As submission makers are required to disclose political donations totalling \$1000 or more in the past 2 years, I can state that **I have not made a disclosable donation.**

Your Sincerely,

(Signature)

(Normally submissions are made public. If this is an issue for you please indicate below)
